

STOP, and take a moment
to read this!!!

Do you know that more than **27 million** people have been victims of modern day slavery!

WHAT IS HUMAN TRAFFICKING?

Human trafficking can be described/explained as the kidnaping, enslaving and exploitation of men, woman and children for use as sex workers, forced labour, and in the illegal trade of organs.

It is so easy for a child to be abducted/sold in todays society, where there is so much corruption and fraudulent acts. Not to mention the fact that we have such serious poverty in our country and it's such a lucrative business, that many parents are willing to sell their kids just to support themselves or an addiction of sorts.

NODIRT wishes to state that this is an unacceptable act of inhumanity in its most serious form. However its not only parents selling kids that leads to human/child trafficking, but rather negligence on behalf of a parent. For example a parent should at all times know where their children are. They should make sure that if their child is "sleeping" over, confirmation should be sought from the other child's parents ; what about having contact numbers at all times too.

The International Organization for Migration (IOM) estimates that there are over 27 million slave victims in the world today. That's a little more than half the South African population!

Many are women and young girls in forced prostitution and others in domestic servitude living off the scraps their owners give them, whatever payments received is minimal.

South Africa still lacks comprehensive legislation to arm the SA police with the ammunition to fight Human Trafficking; the prosecutors do not have specific Human Trafficking legislation to prosecute these malicious reprobates in the courts.

On 20 February 2004, South Africa ratified the primary international instrument addressing Human Trafficking, the United Nations protocol to prevent, suppress and punish trafficking in persons, especially women and children. This protocol is referred to as the "Palermo Protocol"

Rather be safe than sorry and let's put an end to this inhumane crime.
